Cloud Management for Catalyst

Program Goals

Accelerate cloud adoption by Catalyst customers

- **Cloud-Ready:** Catalyst devices which can be cloud managed
- **Cloud-Enabled:** Catalyst devices actively using cloud management features
- Reduce friction in onboarding Catalyst customers to cloud management

Increase SW subscription adoption and renewal rates

- All Catalyst access devices managed by modern SW (DNA or Meraki) with high adoption rates
- Higher renewal rates across DNA and Meraki licensing
- Increase SW revenue through TAM expansion and upsell

Expand Cisco market share across access

- Win more deals/retain more customers with cohesive management story and one access portfolio
- Improved Gartner MQ rankings and commentary

Cloud Management for Catalyst

Key Success Metrics

Cloud-Ready

New Cloud-ready
Catalyst devices
sold

Cloud-Enabled

Wireless: Always Position the Product for the Use Case

Step 1: Ordering the Right AP

Wi-Fi Landscape

Wi-Fi 6E is Extension not replacement of Wi-Fi 6

6E rules are NOT same for all geographies and all deployment types

Supply chain challenges are here to stay

Wi-Fi 6E: The New Chapter of an Incredible Story

**\$3.3
trillion**

2021

48%

**\$4.9
trillion**

2025

WiFi 6E

Contribution will be key

The New Hybrid Work Experience Powered by 6E

Smart Spaces powered by location intelligence

Novel guest experiences and common spaces

Always-on digital collaboration spaces

Dynamic workspaces & mobile workforces

Enhanced Experience through W-Fi 6E

Education

AR/VR/XR learning, e-learning, digital educations

Public Venues

High resolution video, cellular offload, Wi-Fi calling, Sidelines communication

Hybrid Workspaces

Digital collaboration (video conference, digital whiteboards, etc.), teleworking

Healthcare

Telemedicine, robotics, smart IoT devices and wearables, asset tracking

Manufacturing

Automated and digitized operations and supply chain, robots

Capacity

High Density

Performance

Low latency

Easy to Deploy and Use

Why This Convergence is Important for Customers?

- Investment Protection: Allows customers to keep using the same Catalyst Wireless hardware
 - Same RF design: No rip and replace to enable cloud migration going forward
- Competitive Advantage: Moving to a competitor needs rip and replace
- Gives customers the control to migrate at their pace

Keep in Mind

- This is a journey, and we are just starting. We have a long way to go
- We are focusing on use case parity and not feature parity
- SW features are tied to persona.
